Survey Design of Stated Preference Method to Model Modal Shift to MRT Line 7 by <i>Marcelo, K.R.S. and Vergel, K.N.</i>	85

FOREWORD

On behalf of the Transportation Science Society of the Philippines (TSSP), I am pleased to publish the fourth issue of the **Philippine Transportation Journal**. This issue includes papers from the TSSP 2019 conference held in Cebu City last July 26, 2019 that were deemed exemplary and timely (i.e., still applicable at the present time) upon review by the editorial board. The authors were asked to review their papers and were provided an opportunity for further improving their papers after the conference presentations. We acknowledge the authors of the papers and express our gratitude to the reviewers of the papers for this fourth issue. The TSSP is committed to publishing this biannual journal for the benefit of researchers, practitioners as well as others with interest in transportation science in the Philippines.

J.R.F. Regidor, Editor-in-Chief
