FOREWORD

On behalf of the Transportation Science Society of the Philippines (TSSP), I am pleased to publish the sixth issue of the **Philippine Transportation Journal**. This issue includes papers from the TSSP 2021 conference held virtually last November 19, 2021 that were deemed relevant and timely upon review by the editorial board. We acknowledge the authors of the papers and express our gratitude to the reviewers of the papers for this sixth issue. It has been a challenging 2020 and 2021 for everyone as we continue to meet the challenges posed by the Covid-19 pandemic, which in this case have also affected and influenced transportation in many aspects and levels. The TSSP is committed to publishing this biannual journal for the benefit of researchers, practitioners as well as others with interest in transportation science in the Philippines.

J.R.F. Regidor, Editor-in-Chief
